Laboratory

Laboratories

Advanced medical equipment available for the first time in the country!

To perform comprehensive, fast and accurate laboratory tests, each center of Al Hayat Medical Centers has a fully equipped laboratory where laboratory services help doctors to diagnose and identify diseases and injuries suffered by the patient.

The laboratory can perform all the advanced analysis and tests:

* Blood tests.

* Testing chemicals in the blood.

* Proportion of drug tests in the blood.

* Coagulation tests.

* Hormones.

* Agriculture and allergy medicine.

* Examine blood gases.

* HIV tests and rheumatism.

* Tests malignant tumors.
